styleME
SET YOUR OWN TREND!

Touch to Create Unique Ensemble

'Style Me' is an 'augmented reality' based wall (technically an LCD screen or a web based integration), gives the users a privilege; not only to view the apparels digitally but also to select, mix & match and drape them virtually to set their unique trend through an equally trend setting technology. Moreover it provides the user to share his selection on multiple social media platforms and enables him to interact with his friends and relatives.

In the current fad of technical innovations **'Style Me'** is a 4 step revolution in the textile and fashion industry:

Model-Men

1. Choose Model

Select varying models either from Adam or Eve (men or women) section reflecting your personality and stats to make a perfect buying decision.

2. Select Clothes

Be chic & up-to-date with the latest trends and collections to make your unique style statement. Pick, Match, Drape & Customize your clothes digitally and share your distinctive fashion statement.

3. Select Accessories

Pick and Match from a wide range of stylish and catchy accessories viz. Goggles, Watches, Earrings, Scarfs, Handbags and many more that will suit your apparels and persona.

4. And Visualise

Effectively bridging the gap between the virtual and real worlds of fashion, Style Me helps you virtually visualize textiles and apparels, and facilitates your buying decisions. Experience a rich product visualization.
